B.S. in Information Technology

The Information Technology (IT) program covers a broad range of knowledge areas, from organizational information systems to systems infrastructure, in order to equip graduates with the skills necessary to choose, apply, configure, integrate, deploy, and manage computing technology in order to satisfy user requirements across a wide range of contexts.

BSIT graduates are well-suited for professions as system administrators, network engineers, information security specialists, technology consultants, and enterprise system specialists because they have good technical, management, and soft skills.

Duration : 4 yrs
No. Credits : 176
Start Date : July
